

Confidence

Why GIC

Guarding the business interests

of our clients worldwide through GIC competent assessors having intensive industry experience, technical and regulatory knowledge to deliver the most meaningful value added certification audits, bringing consistency, optimization and efficiency to improve the client's management systems performance and to reduce their risks, with minimum disruption and cost to client's operations.

Reaching clients everywhere in the world

whether our clients are looking to operate internationally or to expand locally to accommodate new business, GIC is accessible and has the flexibility and capability to provide world class service anywhere around the world.

Demonstrating competence, impartiality and performance capability

by holding internationally recognized accreditations, GIC's certification process delivers confidence to client's stakeholders that their management systems are meeting international standards and specific requirements.

GIC is accredited by UKAS and JAS-ANZ to provide audit and certification of management systems.
